

31ST INFECTION AND SEPSIS SYMPOSIUM

23-24
FEV.'26

I P A N E M A P A R K H O T E L - P O R T O

Day 1 (23) – Sala Fernão Pires

8.30-9.45 – Code Sepsis. Paulo Mergulhão; Luís Cabral

- Sepsis in the front line. The INEM experience. M^a Adelaide Esteves
- What matters in the Emergency room. Point of care lactate. Andres Giglio
- Sepsis in Intensive Care. From SAC UCI and INFAUCI to new data coming from the portuguese RNMI. João G. Pereira

9.45-10.15 Conference. Moderator João G. Pereira

Code Sepsis – A new position paper for the Iberoamerican world. Marcio Borges

10.15-10.35 – Break

10.35-12.00 – Antibiotic Resistance. Ana Lebre; Catia Caneiras

- Bacterial resistance – what are the priorities in 2026? Nuno Pereira
- Resistance in Gram-Positive Bacteria – Mário Ramirez
- How to address Pseudomonas aeruginosa resistance? Luisa Graça

12.00-13.00 – Symposium Mundipharma

13.00-14.00 – Lunch

14.00-15.15 – Clinical Guide. André Gomes; João G. Pereira

- My approach to identifying the infection focus and selecting an empirical antibiotic.
Paulo Mergulhão
- My approach to starting vasopressors Rita Francisco
- My approach to starting renal replacement therapy. Pedro Fidalgo

15.15-16.15 – Symposium AOP

16.15-16.45 – Conference: moderator Susana Fernandes

Life after septic shock. Real-life testimonies. Inês Machado Vaz

31ST INFECTION AND SEPSIS SYMPOSIUM

23-24
FEV.'26

I P A N E M A P A R K H O T E L - P O R T O

16.45-17.00 – Break

17.00-18.15 – The infection and the Septic syndrome. Marcio Borges; Rafael Zaragoza

- Outcome according to the focus of infection. André Oliveira
- Can we measure the immune response? TBA
- Sepsis in the Transplanted Patient. Nuno Gaibino

Day 1 (23) – Sala Loureiro

15.00-15.15 – Boas-vindas

15.15-16.00 – SEPSIS

- Mecanismos de resistência antimicrobiana e interpretação dos testes microbiológicos na microbiologia clínica
- Antimicrobial stewardship – D-escalação do antibiótico: quando, como e porquê

16.00-16.45 | Conferência: OPAT (Outpatient Parenteral Antimicrobial Therapy): Modelos de implementação e de segurança

16.45-17.00 | Coffee-break

17.00-18.15 – ANTIBIÓTICOS

- Bactérias multirresistentes no hospital: quem são, como diagnosticá-las e como tratá-las em segurança
- Pipeline de antibióticos 2026

31ST INFECTION AND SEPSIS SYMPOSIUM

23-24
FEV.'26

I P A N E M A P A R K H O T E L - P O R T O

Day 2 (24) – Sala Fernão Pires

8.30-9.45 – What is new in sepsis. The year's most relevant papers. Margarida Vera Cruz; André Oliveira

- In cardiovascular support Jacobo Bacariza
- In renal support Silvia Rosa
- In antibiotics TBA

9.45-10.45 – Bacterial Resistance and its challenges Rafael Zaragoza; Carla Mimoso

- Klebsiella Carbapenem resistance. Epidemiology and therapeutic alternatives. Inês Leitão
- Invasive aspergillosis in non-immunocompromised patients Elie Azoulay
- End of Life, antibiotics and bacterial resistance. A clinical conundrum Iuri Correia

10.45-11.05 – Break

11.05-11.30 – Conference: The Human sides of Infection: How behaviour shapes clinical outcomes TBA.

moderator José Artur Paiva

11.30-12.30 – Human Behaviour and quality improvement Ana Lebre and José Artur Paiva

Discussion Panel

- Diagnosing quality gaps: From data to actionable improvement
- The science of behaviour change: Tools for analysis and intervention
- The value of IPS and AMS: Economic impact and outcomes

12.30-13.30 – Symposium Gilead Kyte

13.30-14.30 – Lunch

31ST INFECTION AND SEPSIS SYMPOSIUM

23-24
FEV.'26

I P A N E M A P A R K H O T E L - P O R T O

14.30-15.45 – Pneumonia: still the captain of the men of death José Manuel Pereira; Joana Fernandes

- Pneumonia in the frail and in the old patient Sofia Duque
- Pneumonia in the oncological patient Nuno Príncipe
- Modulation of immune response in pneumonia: what, when and how? Pedro Póvoa

15.45-17.00 – The most severe patients Paulo Mergulhão; João Vilaça

- Which septic patients should receive hemoperfusion? Silvia Rosa
- Refractory septic shock Susana Fernandes
- How can AI help to address severe septic patients? Marcio Borges
